Personal Profile

With a primary interest in the field of Information Technology and a first class degree in Computer Science, I am actively pursuing new challenges having recently worked on a new start-up iOS application for the healthcare industry and freelance educational games for the Welsh Government.

Employment Experience

2015 - present **Now Healthcare Group Ltd**
Lead Software Engineer

At Now Healthcare I am currently working on the iOS application Dr Now. I was allowed to self-manage my workload and was given free reign to incorporate new features and designs to help shape the application I also assist with documentation and providing advice on the best practices for the backend development. Furthermore I utilise task management using JIRA and Agile Planning to address issues and push for new tasks to be implemented.

2011 – 2015 **The Liverpool Office**
www.theliverpooloffice.com
Director / Lead Software Engineer

During my time at The Liverpool Office I was tasked with managing multiple projects for various clients. I needed to create project breakdowns, ensure the clients work was delivered on time and functioned as expected. I was also actively involved in reaching out to find new clients, whether this be travelling to events, managing the social media or alternative means. My work as a Software Engineer had me working mainly with Unity3D and also Wordpress, HTML5, CSS3, PlayStation Mobile SDK, XCode, and Cocos2DX on various other projects.

2001 – 2004 **Woolton Videos**

This job consisted of helping customers, using tills, and ensuring stock was available.

1990 - 1999 **Milkman**

My first job was working in wholesale delivery, which involved collecting payments from members of the public. This job helped build my communication skills through talking and listening to customers, as well as improving my mental arithmetic as money exchanged hands.

Skills and Computing Experience

During my University course I was educated in Java and C++. In my own time I have grown familiar with C# working mainly in Unity3D whereby I have created and freelanced on numerous games. I am also accustomed with Obj-C, HTML5, CSS3 and PHP. More examples of my work can be seen on my online portfolio, www.mdunn.co.uk.

Skills Profile

Software

Unity3D
XCode, Visual Studio & Eclipse
JIRA, Sourcetree
WordPress
Adobe Photoshop & Premiere
Microsoft Office

Languages

C#
Obj-C

Operating Systems

Windows
Mac
iOS
Android

Education

2007 – 2010 **BSC (Hons) Computer Games Technology – Awarded First**

School of Computing & Mathematical Sciences, Liverpool JMU, Byrom Street, L3 3AF

3rd Year: Multimedia Development Workshop
Advanced Computer Games Technology
Online Games Development
Advanced Interaction Technologies
Advanced Computer Games Programming and Workshop
Final Project
User Interface Design

2nd Year: Object Orientated Systems
Personal Development II
Computer Games Technology and Animation
Computer Games Programming and Workshop
Digital Sound and Audio Production
Data Communications and Computer Networks

1st Year: Introduction to Computer Games Technology and Programming
Introduction Programming and Software Development
Web Design
Computer Systems Architecture and Networks
Personal Development
Mathematics for 2-D Computer Graphics and Games

2006 – 2007 **Access to Computing and ICT**

Riverside College Halton, Kingsway Campus, Widnes, WA8 7QQ

Level 2: Computer Programming
Level 2: English (71%)
Level 3: Information Technology (71%)
Level 3: Computing 1 (Data Processing) (73%)
Level 3: Computing 11 (Advanced Programming) (76%)

2004 – 2005 **C&G Level 2 Diploma for IT Practitioners**

Faculty of Media, Arts & Social Science, Clarence Street, Liverpool, L3 5UG

Create Software Components Using Visual Basic (Distinction)
Create Software Components Using Java (Distinction)
Test Software Components (Credit)
Operating Systems (Distinction)
SQL Level 3

2004 – 2004 **European Computer Driving Licence**

Hobbies and Interests

I enjoy participating in a daily gym regime, watching movies, playing videogames and socializing with friends. When I have spare time I also enjoy creating videogames and applications as a hobby. I currently have released personal games for the Android, iOS and Windows Phone platforms and two freelance educational games for the Welsh Government.

Personal Details

Driving Licence: Yes **Prepared to Relocate:** No
